

# NANOTECH GUMMIES

The most common process for creating water-soluble CBD and THC is

## NANO-EMULSION

This edible is **A FULLY HOMOGENIZED PRODUCT.**

If you take half of a 10mg THC edible, you are consuming exactly 5mg THC.

**100% THC**

Thanks to the nanotechnology, the product **CAN BE RAPIDLY ABSORBED** by the body and **QUICKLY METABOLIZED** so patients **FEEL THE BENEFITS AND EFFECTS FASTER.**

Our formulation uses water as a base, which makes it **LESS VISCOUS, EASIER TO DISPENSE AND BETTER TASTING** than traditional oil-based products.

*Full of Life.*
